The Neurology of Consciousness:
Cognitive Neuroscience and
Neuropathology

Edited by

Steven Laureys and Giulio Tononi
## Contents

*Preface* ix  
*Prologue* xi  
*List of Contributors* xiii  

**Section I: Basics** 1  
1. Consciousness: An Overview of the Phenomenon and of Its Possible Neural Basis  
   *Antonio Damasio and Kaspar Meyer* 3  
2. The Neurological Examination of Consciousness  
   *Hal Blumenfeld* 15  
3. Functional Neuroimaging  
   *Steven Laureys, Melanie Boly and Giulio Tononi* 31  
4. Consciousness and Neuronal Synchronization  
   *Wolf Singer* 43  
5. Neural Correlates of Visual Consciousness  
   *Geraint Rees* 53  
6. The Relationship Between Consciousness and Attention  
   *Naotsugu Tsuchiya and Christof Koch* 63  

**Section II: Waking, Sleep and Anaesthesia** 79  
7. Intrinsic Brain Activity and Consciousness  
   *Marcus E. Raichle and Abraham Z. Snyder* 81  
8. Sleep and Dreaming  
   *Giulio Tononi* 89  
9. Sleepwalking (Somnambulism): Dissociation Between ‘Body Sleep’ and ‘Mind Sleep’  
   *Claudio L. Bassetti* 108  
10. General Anaesthesia and Consciousness  
    *Michael T. Alkire* 118  

**Section III: Coma and Related Conditions** 135  
11. Coma  
    *G. Bryan Young* 137  
12. Brain Death  
    *James L. Bernat* 151  

---

**vii**
CONTENTS

13. The Assessment of Conscious Awareness in the Vegetative State
   Adrian M. Owen, Nicholas D. Schiff and Steven Laureys
   163

14. The Minimally Conscious State: Clinical Features, Pathophysiology
    and Therapeutic Implications
   Joseph T. Giacino and Nicholas D. Schiff
   173

15. Consciousness in the Locked-in Syndrome
   Olivia Gosseries, Marie-Aurélie Bruno, Audrey Vanhaudenhuyse,
   Steven Laureys and Caroline Schnakers
   191

16. Consciousness and Dementia: How the Brain Loses Its Self
   Pietro Pietrini, Eric Salmon and Paolo Nichelli
   204

17. Brain–Computer Interfaces for Communication in Paralysed
    Patients and Implications for Disorders of Consciousness
   Andrea Kübler
   217

18. Neuroethics and Disorders of Consciousness: A Pragmatic
    Approach to Neuropalliative Care
   Joseph J. Fins
   234

Section IV: Seizures, Splits, Neglects and Assorted Disorders 245

19. Epilepsy and Consciousness
   Hal Blumenfeld
   247

20. The Left Hemisphere Does Not Miss the Right Hemisphere
    Michael S. Gazzaniga and Michael B. Miller
   261

21. Visual Consciousness: An Updated Neurological Tour
    Lionel Naccache
   271

22. The Neurophysiology of Self-awareness Disorders in Conversion Hysteria
    Patrik Vuilleumier
   282

23. Leaving Body and Life Behind: Out-of-Body and Near-Death Experience
    Olaf Blanke and Sebastian Dieguez
   303

24. The Hippocampus, Memory, and Consciousness
    Bradley R. Postle
   326

25. Syndromes of Transient Amnesia
    Chris Butler and Adam Zeman
   339

26. Consciousness and Aphasia
    Paolo Nichelli
   352

27. Blindness and Consciousness: New Light from the Dark
    Pietro Pietrini, Maurice Ptito and Ron Kupers
   360

28. The Neurology of Consciousness: An Overview
    Giulio Tononi and Steven Laureys
   375
